

Check patent

Patents and permits to foreigners to work checked on a special page of the official website of the FMS. To determine whether a valid patent resolution you first need to click on the link leading to the website of the Federal migration service <http://services.fms.gov.ru/info-service.htm?sid=2060> When the page appears in a new tab fill in all the fields of the request form in the following way. The system usually quite quickly displays its verdict. When you see that the base of the FMS contains information about the patent can reject all doubts in its legality. If the entered details, the system will not find anything that would mean that the document is a fake or information about it not yet are unable for whatever reason to bring in the FMS database. With Megaranto foreigner easy to get official and legal patent work. Legal support for migrants in Moscow All rights reserved © 2015 Call right
