

## Patent experts and patent attorneys

Each of our specialist has over years of experience state expert of Rospatent. We are professionals in the examination and the preparation of applications. We do the best patents for inventions and utility models Services of patent attorneys and experts on intellectual property Patent-Help include not superficial analysis of the development but a deep dive into the essence of the problem. To do this, we To each order we select specific professionals from the required field of technology We use remote format to reduce Your costs and simplify communication. You can be in any region of Russia and it will not affect speed. Now to get a patent even without going to the office The work of obtaining a patent needs to be boxed. Therefore, we accept a limited number of orders. Yes it is not a streaming method in which we could make more money. But You can be sure In our patent office is waiting for You personal touch and attention Each patent application in our company is two levels of verification. In practice, the quality of our work is the absence of queries from Rospatent and accelerated examination at all stages. This means You will not have unexpected expenses and You very quickly get
