

Patent for individual entrepreneurs for 2017 on what activities are covered?

The contents Each individual entrepreneur at the end of this year, think about the patent system doing a particular activity. No one will argue that this form is very well-known and in demand a sufficient amount of time. A number of advantages among which the convenience of individual entrepreneurship attracts more and more people however, in the following year, introduced some constraints on that variation. If you go back to the past it is possible to note an increase in the list of possible types of services. For example, beginning in 2014 patents was only 35 SP and in 2016, this figure increased to 63. Who gets the patent PI, and what activities you can count on him next year First of all, it is worth noting that in 2017 has tightened the requirements to obtain the coveted document can only be individual entrepreneurs. If for some reason you don't see your activity in the list you should pay attention to the conditions of granting permission for opening SP. What demands will be next year to get into the coveted list, you need to follow some rules among which Activities fall under the patent in 2017 for individual entrepreneurs in Moscow and the Moscow region has grown significantly. This year, the price is calculated on the basis of the activity of the entrepreneur but on the whole taxation is about 6-7 percent. It is important to note that the value does not affect the income of the company and expiry date. If you take into account the retail trade in the first place it is necessary to consider the form of the activity and the number of months or years of using this service. You can use a special calculator which will give an individual figure your tax. Patenting also extends to the provision of transport services in particular for the transportation of valuable cargo. If we talk about the logistics will not be superfluous to mention the number of people who work in the enterprise. Also much influenced by the figure having the amount taken in the work of the machines and their average carrying capacity. According to the law of the Russian Federation constituent entities are subjected to the General tax rate of 6 percent. The validity period can vary from 1 to 12 months. It is necessary to consider the activities and timing of issuance of documents for patenting. In order to obtain a patent on the UI, you must visit the service on preferably at the place of residence of the entrepreneur. All you have to do to properly execute a statement that consists of 5 pages. It is obligatory to fill in the lines which state the place of residence of the entrepreneur and the actual registration
