

The patent for the rental of 2016

The value of a patent on the delivery of housing in the lease in 2016 will be determined according to the new amendments to the law On patent taxation system. Now the cost of the patent tax will be calculated depending on the size of the apartment and location. The logic is simple, the cost of the tax will depend on the market price of the apartment. Total area and location greatly affect the total cost of the lease - the difference may reach several tens of thousands of rubles. Tax on rental of apartments FELL by 2016, 40% for apartments with area up to 75 meters Additional costs to the cost of the patent contributions to the pension Fund and compulsory medical insurance. Of course we should all carefully consider count - may be more profitable to pay taxes as an individual. If the intentions are serious is to go to the tax office at the place of residence and to find out more. If you need to rent an apartment - call by phone 8 495 5048679 or 8 916 469-02-30 If you need additional information on patents visit the official website of the tax service - there is a lot of useful information.
