

What documents are needed for registration of a patent

Very often in our life the organization of living space have to resort to hiring employees who will help to care for a house with children or perform odd jobs. Russians are increasingly using the services of workers from abroad because it is economically more profitable but to raise the employment must be employment or civil-law contract for the provision of certain services or performance of works. If a foreigner is planning to work in the personal sector of your employer then you need to patent the work. Such a patent does not give the right to carry on business or be employed in any organization or company. If you want to work for a legal entity then You need to have a work permit. Citizens arrived in Russia from visa-free countries need to know what documents are needed for a foreign citizen for a patent. To get it you need to the territorial migration service to provide If You arrive in Russia with one of the visa exempt countries which includes Moldova Belarus Ukraine Azerbaijan Armenia Kyrgyzstan Tajikistan Uzbekistan the patent will be issued within 10 days from the date of filing. Issued patent for a period of 1-3 months. After this period, the patent can be renewed several times up to a year but each time no more than 3 months. It all depends on the paid amount of tax. Nobody will force You to pay the tax to incomes of physical persons for three months but if You have a fixed advance payment per month then the patent will be deemed extended for the same time and then have to apply to the territorial migration service for an extension. If You failed to pay the tax, the patent expires immediately the next day after the period of disbursement. If it's been 12 months since You received your patent, you must obtain a new patent. For this you need to apply to the territorial migration service and provide the following documents To the patent You gave required to present On presentation of the patent documents issued to You personally. Place of issuance of the patent is important because foreign nationals are entitled to work only in the territory of the Russian Federation where the patent was granted and it is only issued by the territorial bodies of the FMS. The procedure of conducting labor activity in Russia citizens of other States from individuals is clearly stated in article 13.3. Federal law of 25.07.2002 No. 115-FZ On legal status of foreign citizens in the Russian Federation as amended on 18.07.2011. The patent for work in Russia is not issued if What documents are needed for
